To the Federal Communications Commission,
As a paying subscriber of XM radio, I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available in my area. Because I pay for these services, it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that I demand and deserve.

Sincerely,

Parri Gignac
